

Keep Your Practice Profitable and Your Patients Connected Between Visits, Post-Discharge, In Crisis

ChronicCareIQ is award winning technology that enables any physician or practice to provide comprehensive remote patient care. Existing reimbursements up to \$265 per patient per month and an unprecedented 91% patient satisfaction are proof that, you too can:

- 📞 Reduce Hospitalization – 29.8% documented reduction
- 📞 Capture New Revenue – Over 15 CPT codes already pay for connected care
- 📞 Convert Visits to e-Visits – one simple click for patients
- 📞 Identify and Halt Disease Progression Sooner
- 📞 COVID screening & monitoring. Secure patient messaging and texting

Succeed Clinically, Financially, and Operationally

CHRONIC CARE MANAGEMENT – Conservatively add \$5k - \$7k per provider per month NEW revenue

REMOTE PATIENT MONITORING – An extra \$54 - \$123 per patient per month in NEW revenue

TELEMEDICINE –HIPAA compliant, single-click telemedicine included at no charge

TRANSITIONAL CARE MANAGEMENT – Reduces hospitalization and re-hospitalization

MACRA, MIPS, and BUNDLES – Improve quality and reduce costs while checking bonus boxes in MIPS

Masterfully Effective and Surprisingly Simple

- 📞 IMPROVE OUTCOMES – Makes you aware of patient trends BEFORE an adverse event
- 📞 STRENGTHEN PATIENT RELATIONSHIPS – 87% patient retention at one year
- 📞 STREAMLINE WORKFLOW - Works with any EHR. No clinical duplication. Robust documentation
- 📞 OPTIMIZE BILLING - Tracks and maps best reimbursement combinations
- 📞 REDUCE WORKLOAD - Lowers call volumes and reduces workload of complex patients

Better Decision Making with Better Information
Greater Reimbursement - Less Work

Automatically Monitors Patients

Patients answer a few questions when prompted via phone, email, text, or even land line. Participation is high because:

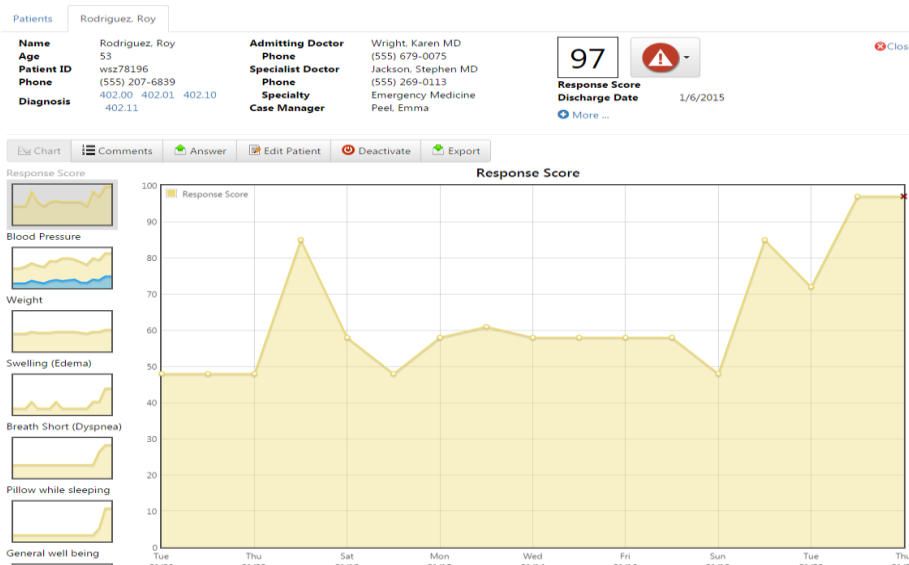

- It's proactive & patient specific
- Takes only seconds to respond
- Nothing to purchase or install at home
- As simple as an alarm clock to use
- Goes everywhere the patient goes

Dashboard Collates Responses & Highlights Alerts

Last Name	First	Middle	Status	Score	Δ Day	Δ Week	Protocol	Timer	Phone
