

# Do Remote Patient Monitoring & Chronic Care Management Yourself and Add \$7k to \$10k per mo.

ChronicCareIQ is unique medical technology that automatically engages and tracks your fragile and chronic patients for you. An unprecedented 91% patient satisfaction rate with 87% patient retention at one year are proof that without hiring third parties or expensive overhead, you too can:

- 👂 Prevent Unnecessary ED and Hospital Visits
- 👂 Have Stronger Relationships Resulting in Better Care and Comfort
- 👂 Identify and Halt Disease Progression Sooner
- 👂 Add Significant NET NEW revenue – Guaranteed

## *Succeed Financially and Clinically with ONE Platform*

**CHRONIC CARE MANAGEMENT** – CCM adds \$3k to \$6k per provider per month in NEW revenue  
**TRANSITIONAL CARE MANAGEMENT** – Track discharged patients through extended recovery  
**REMOTE PATIENT MONITORING** – An extra \$54 - \$123 per patient per month is NEW in 2019  
**MACRA MIPS** – Close gaps, reduce costs, and check bonuses in MACRA (Advancing Care and CPIA)  
**BUNDLES** – Dramatically reduces costs & and provides unfair advantage to ANY risk based APM

## *Masterfully Effective and Surprisingly Simple*

- 👂 Better Outcomes. Happier Patients. Additional NEW Revenue. Less Work
- 👂 Automatically and pro-actively keeps tabs on patients
- 👂 Bolts on to your EHR. No clinical duplication
- 👂 Tracks all reimbursement metrics and maps best reimbursement combinations
- 👂 Lowers call volumes and reduces workload of complex patients
- 👂 IMPROVE OUTCOMES – How much actionable intel do you really have on your chronic patients?

**Better control of chronic and fragile patients**  
**More reimbursement**  
**Less work**

# Automatically Monitors Patients

Patients answer a few questions when prompted by their phone, email, or text. Participation is high because:

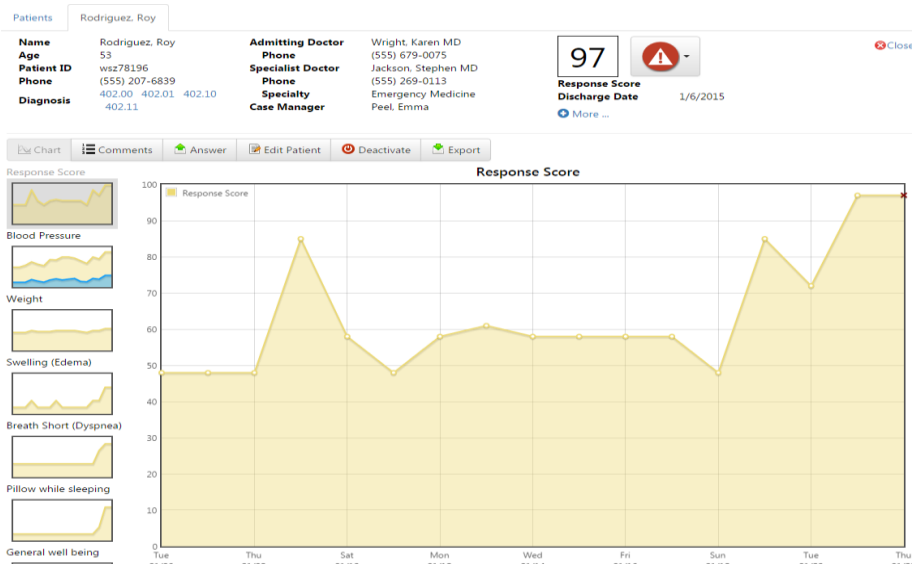

- It's proactive & patient specific
- Takes only seconds to respond
- Nothing to purchase or install at home
- As simple as an alarm clock to use
- Goes everywhere the patient goes
